■ *In the beginning, God created the heaven and the earth.*

--Genesis 1:1

WHEN
WAS THE
BEGINNING

????

DOES IT MATTER WHEN IT WAS?

- Absolutely!
- 1 The Foundation ---Genesis--- is at stake
 - Nearly every Bible book refers to Genesis —200X alone in New Testament
- 2 The Credibility of Jesus Christ is at stake
 - Cites Genesis 25 times
- 3 The Character of God is at stake
 - A god that uses blind chance vs. All-powerful Creator
- 4 Biblical Authority is at stake
- 5 Our next generation is at stake

Ken Ham says in “A Young Earth, it’s not the issue”...

- “You see, if Christian leaders have told the next generation that one can accept the world’s teachings in geology, biology, astronomy, etc., and use these to (re)interpret God’s Word, *then the door has been opened for this to happen in every area, including morality.*”

Fossil Leaves Suggest Asteroid Killed Dinosaurs

- By John Roach
for National Geographic News

- June 17, 2002
- A team of scientists says evidence from fossilized leaves indicates that dinosaurs appear to have become extinct as a result of the catastrophic impact of an asteroid and not volcanic activity.
- Dinosaurs, along with an estimated 70 percent of all life on Earth, are believed to have gone extinct 65 million years ago as a result of a series of dramatic temperature changes.** The extinctions are known as the K-T extinctions because they fall on the boundary between the Cretaceous (geological symbol K) and the Tertiary periods.

Billions and Billions of Years ago...

- Merril Science 1st Grade textbook, "Earth has changed much since it's formation 4.5 billion years ago. Some life on Earth has adapted to these changes. Other life, such as the dinosaurs, was not able to adapt and survive changing environments."
- Prentice Hall General Sciene, 1992, pg. 61, "How was the universe born and how will it end? Most astronomers believe that about 18 to 20 billion years ago, all the matter in the universe was concentrated into one very dense very hot region that may have been much smaller than a period on this page. For some unknown reason this region exploded.....**the Big Bang.**"

Christians need to have the Answer to these claims.

- *But sanctify the Lord God in your hearts: and be ready always to give an answer to every man that asketh you a reason of the hope that is in you with meekness and fear: --1st Peter 3:15*

- The Debate

- The Bible says the creation of Adam and Eve was the beginning
- “Modern-Science” says the earth is billions of years old

WHEN is the
Beginning????

In The beginning the Serpent was more “subtil” with God’s word. Since then, we’ve been more subtil too.

Genesis 3:1

“Where wast thou when I laid the foundations of the earth?” –Job 38:4

- *My help cometh from the LORD, which made heaven and earth. --*

Psalm 121:2

- *Our help is in the name of the LORD, who made heaven and earth. –Psalm 124:2*

REPETITION is is the the Best Best Teacher

- 10 Commandments repeated twice
 - Exodus 20:1-17, Deuteronomy 5:6-21
- 4 Gospels
 - Matthew, Mark, Luke, John
- The Lord Jesus' Sermons— Matthew 5-7, Luke 6:20-49
- ***Ye Must Be Born AGAIN!*** John 3:3,5,7
- ***Except ye repent, ye shall all likewise perish.***

Luke 13:3, Luke 13:5

Matthew 19:4

*And he answered and
said unto them, Have ye
not read, that he which
made them at the
beginning made them
male and female....*

Mark 10:6

But from the beginning of the creation, God made them male and female.

Adam and Eve were made at the Beginning.

- *And so it is written, The first man Adam was made a living soul; the last Adam was made a quickening spirit.* ---1st Corinthians 15:45
- *And Adam called his wife's name Eve; because she was the mother of all living.* —Genesis 3:20

*...who created all things by
Jesus Christ:*

--Ephesians 3:9

- *15 Who is the image of the invisible God, the firstborn of every creature:*
- *16 For by him were all things created, that are in heaven, and that are in earth, visible and invisible, whether they be thrones, or dominions, or principalities, or powers: all things are created by him, and for him: --Colossians 1:15-16*

The “VERY GOOD” Old Days

- *And God saw every thing that he had made, and, behold, it was very good. And the evening and the morning were the sixth day.*

---Genesis 1:31

Man Brought Death into the World

- *12 Wherefore, as by one man sin entered into the world, and death by sin; and so death passed upon all men, for that all have sinned.*
- *19 For as by one man's disobedience many were made sinners, so by the obedience of one shall many be made righteous.*
 - ---Romans 5:12,19
- *Nevertheless, death reigned from Adam to Moses, even over them that had not sinned after the similitude of Adam's transgression, who is the figure of him that was to come. --*
Romans 5:12

Psalm 104:1-2

- *1 Bless the LORD, O my soul. O LORD my God, thou art very great; thou art clothed with honour and majesty.*
- *2 Who coverest thyself with light as with a garment: who stretchest out the heavens like a curtain.*

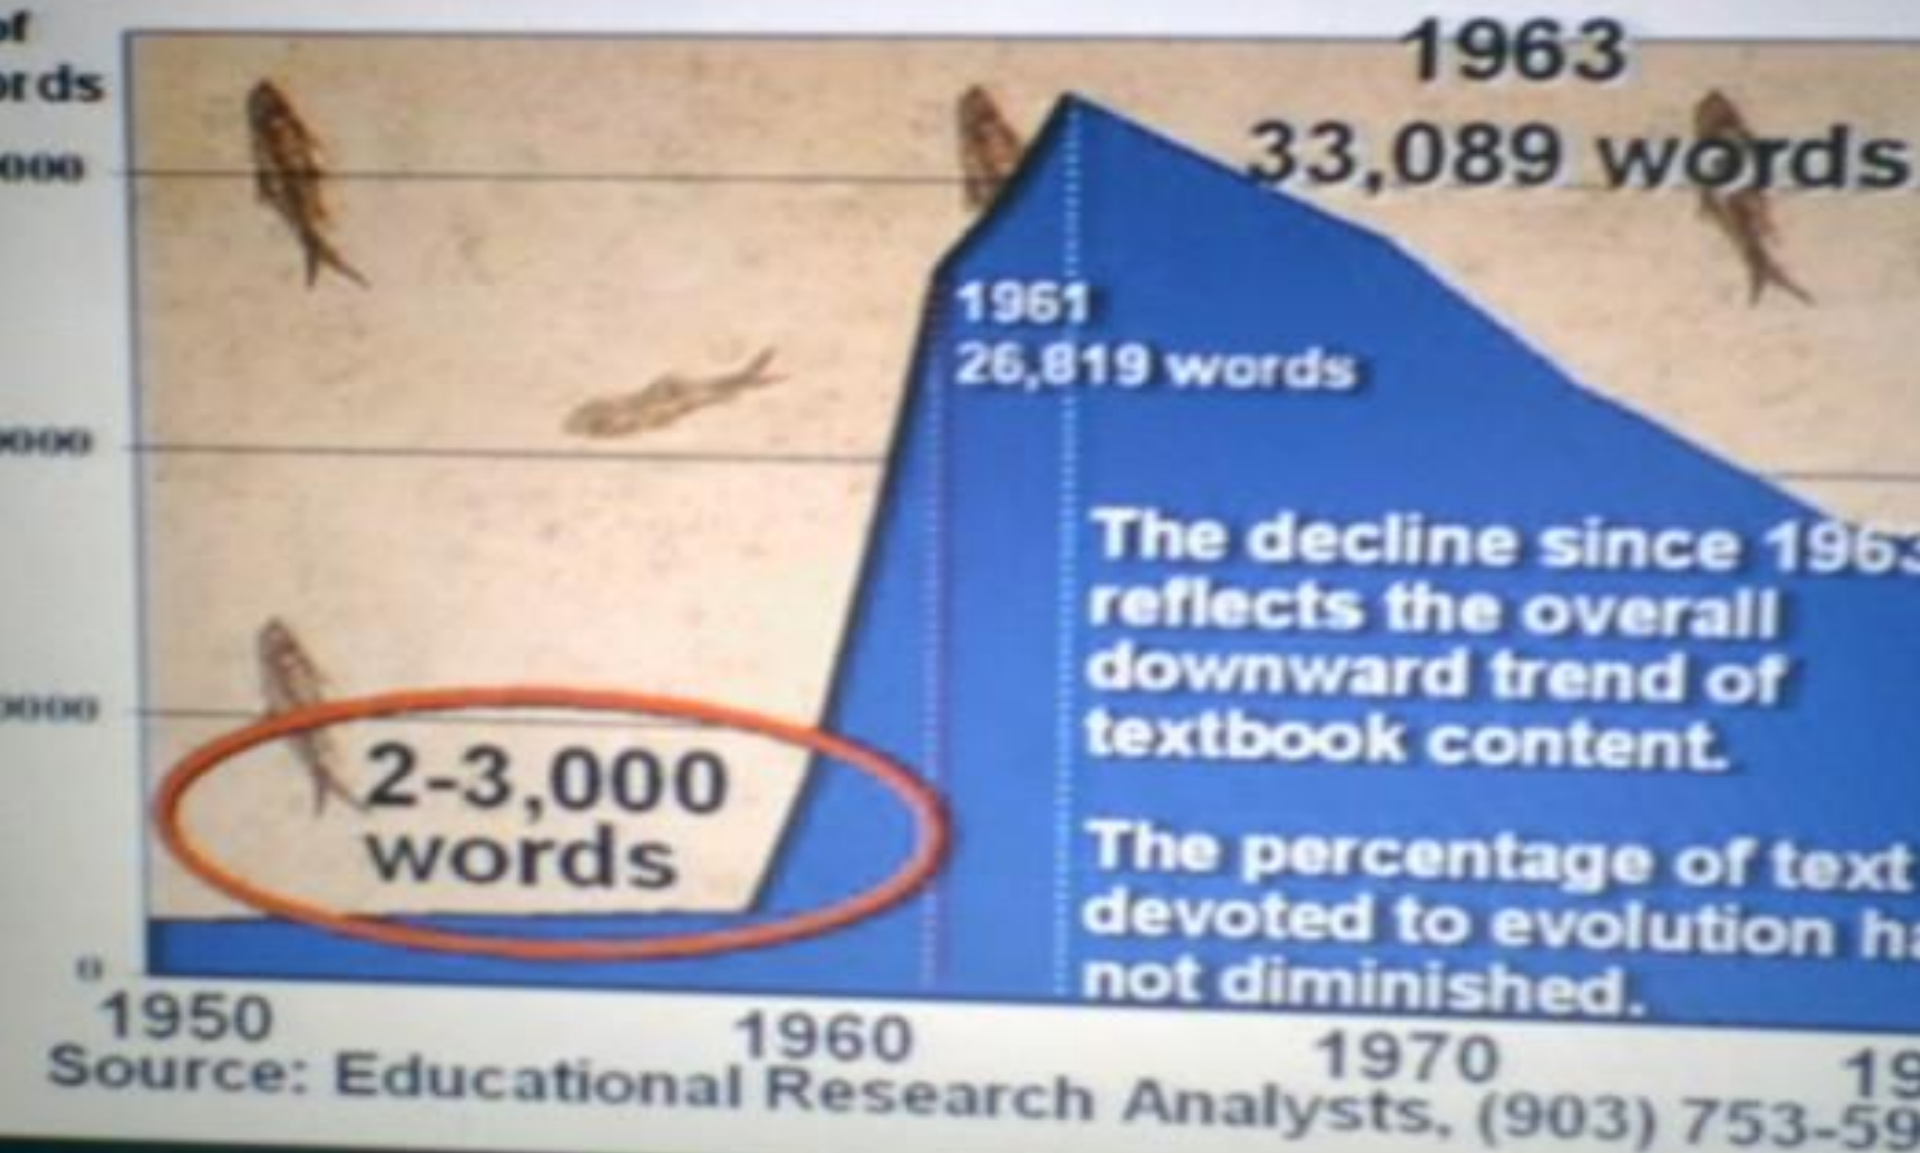

Quick Summary:

- Evolution Scientists look at the expanding universe and go “back, back, back, back” and ----skipping 6,000 years ago when “In the beginning, God.....” ---- arrive at a point when there was nothing but a concentrated bit of matter which exploded into our expanding universe.
- All the dating methods used to “prove millions of years” are flawed, conflict, and require too many assumptions
 - Scripture, Science, math, History, archeology support a young Earth
- “In the Beginning God....”
- “In the Beginning Dirt....”

In 6 days....

- Reading the Bible without an outside influence clearly shows God created everything in 6 literal 24 hour days.
- Genesis 1:5 ...*"And the evening and morning were the first day."*
- *"But the seventh day is the sabbath of the Lord thy God.....For in six days the LORD made heaven and earth, the sea, and all that in them is, and rested the seventh day: wherefore the LORD blessed the sabbath day, and hallowed it."*
Exodus 20: 11-12

**WHY ONLY
QUESTION
GENESIS?**

Does it matter?

- Yes!!! If you can't take Genesis literal, how can you trust the rest of the Bible?
 - ▣ "For All have sinned." Does it really mean ALL?
 - ▣ "Whosoever was not found written in the book of life was cast into the lake of fire." Real fire? Whosoever?
 - ▣ "Go ye into all the world and preach the gospel to every creature." Does it mean every? Does it mean everywhere? Do we really need to preach?
- Was there death before Adam sinned?
- Why is there so much pain and suffering in this world? Either death "caused" man or it's "because" of man. Man brought death vs. Death brought Man

Limiting Factors

- Dr. Kent Hovind illustrated in his seminar---
- If you find a sunken ship with a treasure chest full of gold coins and ask—
 - When did the boat sink?
- Look at the date on the coins.
 - 1760, 1775, 1720, 1740, 1733
- **Ship couldn't have sunk any earlier than oldest date on the coin---on or after 1775 here**
- **Limiting factors to age of the earth---they are independent, and only one has to be right for the old earth theory to be voided**

The Begats...

- And Adam lived an hundred and thirty years, and begat a son in his own likeness, after his image; and called his name Seth:
 - --Genesis 5:3
 - (NOTE: 5:1 says, This is the book of the generation of Adam. In the day that God created man, in the likeness of God made he him)
- 6 And Seth lived an hundred and five years, and begat Enos:
- 9 And Enos lived ninety years, and beget Cainan:
- 12 And Cainan lived seventy years and begat Mahalaleel:
- 15 And Mahalaleel lived sixty and five years, and begat Jared;
- 18 And Jared lived an hundred sixty and two years and he begat Enoch:

In addition to the chronologies given in Genesis 5 and 11, Ussher used other large periods of time given in several places in the Bible. Below are these large periods of time that Ussher used in his calculations—without going into all the intermediate details as he did.

HENCE THE YEAR OF CREATION = 584 + 3,420 = 4004 BC

AFTER EDEN

by Dan Lietha

An historic moment in Earth history as Cain's young son becomes the first to ask about where Cain got his wife.

Where did Cain find his wife?

- *And Cain went out from the presence of the LORD, and dwelt in the land of Nod, on the east of Eden.*
- *And Cain knew his wife; and she conceived, and bare Enoch: and he builded a city, and called the name of the city, after the name of his son, Enoch. --Genesis 4:16-17*
- *And the days of Adam after he had begotten Seth were eight hundred years: and he begat sons and daughters: --Genesis 5:4*

The Law of Conservation of Angular Momentum

- A spinning object continues spinning in the same direction
- Someone spinning clockwise on a merry-go-round will continue to spin clockwise if “spun off” until resistance is encountered
- Contradicts “Big Bang” which proposes a spinning cosmic explosion started the universe
 - Some galaxies, planets, moons spin backwards
 - Uranus and Venus rotate backwards, 1/3 of 60 moons have retrograde (backward) motion

1st Law of Thermodynamics

- States that matter and energy cannot created nor destroyed
 - Can only change form (water to ice)
 - Supported by Biblical view, requiring God to account for all matter and energy
 - Evolution instead credits the Big Bang
 - What caused the Bang? Where did all the matter come from? This violates the 1st law. Something cannot come from nothing.
- Either God made it or the world made itself.

2nd Law of Thermodynamics

- The Law of Entropy
- All systems tend toward becoming random and disorganized
 - Everything runs down, wears out, and goes to pieces.
 - Nothing organizes on it's own or gets better over time
 - Vs. Evolutionary theory that simple evolves into complex
 - Hebrews 1:10-11, Psalm 102:25-26
 - Isaiah 51:6***Lift up your eyes to the heavens, and look upon the earth beneath: for the heavens shall vanish away like smoke, and the earth shall wax old like a garment, and they that dwell therein shall die in like manner: but my salvation shall be for ever, and my righteousness shall not be abolished.***

Galaxies

- Spiral shape is proof they aren't billions of years
- Big Bang would cause even distribution of matter
- Stars in Inner middle of our Milky way galaxy spins faster than stars in outside
- If 10 billion years, wouldn't have spiral shape to it
- The observed rotation speeds are so fast that if our galaxy were more than a few hundred million years old, it would be a featureless disc of stars instead of its present spiral shape. Yet our galaxy is supposed to be at least 10 billion years old. Evolutionists call this "the winding-up dilemma"
 - Scheffler, H. and Elsasser, H., *Physics of the Galaxy and Interstellar Matter*, Springer-Verlag (1987) Berlin, pp. 352–353, 401–413.

Red Giants

- Enough stars in the universe that every one on Earth can have 11 trillion (11,000,000,000,000) of them.
 - No one has seen a star form from “stellar and planetary evolution”
- Evolutionists claim it takes red giant stars millions or billions of years to become white dwarves
 - Stars burn up, fall apart
- **Ancient astronomers document Sirius as a red star. Within past 2,000 years it's now a white star**
 - Cicero in 50 BC stated Sirius was red
 - Seneca said it was redder than Mars

The Shrinking SUN

- “What does the shrinkage of the sun have to do with creation and evolution? The sun was larger in the past than it is now by 0.1% per century. A creationist, who may believe that the world was created approximately 6 thousand years ago, has very little to worry about. The sun would have been only 6% larger at creation than it is now. **However, if the rate of change of the solar radius remained constant, 100 thousand years ago the sun would be twice the size it is now. One could hardly imagine that any life could exist under such altered conditions.** Yet 100 thousand years is a minute amount of time when dealing with evolutionary time scales.”^{by Russel Akridge PhD, The Sun is Shrinking}

AFTER EDEN

by Dan Lietha

Jupiter and Saturn

- Both radiate (give off) more heat than they receive from the sun.
 - **Jupiter is losing heat –can't be billions of years old**
- Indicated a hot molten core. In billions of years would have cooled off and reached equilibrium
- Jupiter's moon Ganymede
 - Strong magnetic core
 - Indicated young moon
- Saturn's rings
 - Unstable. Wouldn't have held up this long

Moon and Tides

- Moon affects tides
- Linked to earth by mutual gravitational pull
- Twice daily tide inflicts slight drag on earth's rotation, causing moon's orbit to recede
 - 3 inches per year
- Going backward, moon would have touched earth at 1.2 billion years ago --far before age evolutionists give for planet
 - Before that the Tides would be enormous

Comets

- Made of frozen gasses and small rocks
 - Lose material when orbit takes them close to sun
 - Comets disintegrate too quickly
- Have a life expectancy of 10,000 years
- No one sees new comets forming

The Oldest Tree

- The Bristle cone pine
 - Older than Sequoias
 - In California White mountains
- Approximately 4,300 years old
- Dated via tree rings
 - May produce two rings a year
- *Giant sequoias of California have no known enemies except man*
 - *None older than 4,000 years old. WHY???*
 - Both parent tree and offspring are still alive!

The Oldest Reef

- The Great Barrier Reef
 - In Australia
- Dated via measuring growth rate

Some reef destroyed in WWII, observed regeneration over a 20 year period

- Calculated age of reef at Less than 4,200 years

The Oldest Desert

- Sahara Desert in Africa
- Prevailing wind pattern from earth's rotation cause process called desertification
- Expands at approximately 4 miles per year
- Calculations based upon expansion rate show desert to be 4,000 years old
- Should have reached maximum size over millions of years

Oldest Records

- **History is too short**
- Ancient man as intelligent as modern man
- Oldest written records from 3500 BC and reveal highly advanced civilizations
 - “Prehistoric” man built megalithic monuments, beautiful cave paintings, kept records of lunar phases
 - Makes no sense that he would wait a thousand centuries before using the same skills to record history
- **Records of languages don't go beyond 3000 BC**
- Oldest writings are 5000 years old
- Chinese calendar says year 4700 –started with Noah?
- Hebrew calendar says 5760 ---started with Adam?
- **Agriculture is too recent.** Usual picture is Stone Age lasted 100,000 years, yet only 10,000 years ago did man discover agriculture. Already advanced, unreasonable to think that one person in 4 billion people could not discover plants come from seeds

Oil Pressure

- Oil is under pressure in ground
 - ▣ Formed from burial of animals, humans, and plants in Noah's flood
- 20,000 lbs per square inch
- From rocks on top
- Oil pressure is greater than rocks above it
- Should have cracked rock and equalized pressure in less than 10,000 years

Earth's Slowing Rotation

- Earth spins 1041.6 miles per hour
- Slows down every year
- Earth was much faster in past
 - 6,000 years ago not a problem
 - Billions of years ago, 5,000 mile per hour winds
- Leap seconds are necessary because time is measured using stable atomic clocks (TAI or International Atomic Time), whereas the rotation of Earth slows down constantly, though at a slightly variable rate. Originally, the second was defined as 1/86400 of a mean solar day (see solar time). This is determined by the rotation of the Earth around its axis and its orbit around the Sun; time was measured by astronomical observations. But the solar day gradually became 1.7 ms longer every century,^[1] due mainly to the friction associated with tides.
 - http://en.wikipedia.org/wiki/Leap_second#Reason_for_leap_seconds

Population

- **Population doubles**
 - Every 150 years
 - Whether war, famine
- 6 from Noah's ark....12....24....48....
 - To 7 billion = 30 "doublings". $30 \times 150 = 4500$ years
- Yet, humans are supposed to be here for a million years.
 - **Should see trillions of people then**

Human Population Chart

Jacksonville, Florida

- The world is not over-crowded
- Jacksonville, Florida has 25 billion square feet
- Enough to hold the current population in the world right now
 - Population Clocks from US Census Bureau
- | | |
|-------|---------------|
| U.S. | 303,653,816 |
| World | 6,639,227,224 |
- With a world population of about 5.5 billion, if we allowed everyone a generous 2x2' patch of ground on which to stand, we'd cover an area of less than 800 square miles--**only about the size of Jacksonville, Florida.**
--Marilyn Vos Savant

Declining Magnetic Field

- Magnets lose their strength over time
- 10-15% decrease in Earth's magnetic field in past 150 years
- Hence, it was much stronger in the past
 - 6,000 years ago, would be ok
 - Billions of years ago---impossible!
- Decreased by a factor of 2.7 over past 1,000 years
- Can't be billions of years—calculated 25,000 years max
- Also shows carbon dating can't work
 - Related to the magnetic field, as field declines more radiation comes in

Supernova Explosions

- Stars blow up every 25-30 years
 - Called a nova, supernova
- No one has ever seen a star form
- **Hubble telescope has spotted less than 300 Supernova rings.**
 - Shows less than 10,000 years

Waterfalls shouldn't be here
due to erosion.

Niagara Falls

- Fast eroding
- Last 200 years erodes at 4.7 feet per year
- Started near Lewiston, NY
- 9,900 years of erosion
 - Flood could do 50% of erosion
- Niagara Falls would have eroded back already toward Lake Erie if million/billion years

Ocean Salt Content

- Ocean is 3.6% dissolved minerals
 - Mostly salt---elements sodium and chlorine
- Annually, rivers and other sources dump 457 million tons of sodium into the ocean
- 27% leaves ocean each year (122 million tons)
- Rest accumulates
- Even if sea had no sodium to begin with, present amount would have been reached much sooner than evolutionary age of ocean.

Ice Core Evidence

- Ice Cores from Ice drilling thought to be “annual rings”
 - Max 10,000 feet of ice drilled in Greenland, Iceland
- Lost Squadron –in WWII airplane landed in Greenland out of gas
- 48 years later is dug out –under 263 feet of ice
- Ice formed 5.5 feet per year
- $10,000 \text{ feet} / 5.5 \text{ feet} = 1,800 \text{ years of ice.}$
- Deeper layers get squished, 4,400 years is reasonable to account for all the ice seen

Mud on the Seashore

- In Ocean, 25 billion tons of dirt and mud enter per year, less than 1 billion tons leaves per year
 - From water and wind erosion, deposited in ocean
 - Accumulates as loose sediment (mud) on hard basaltic (lava-formed) rock of ocean floor
 - Average depth less than 400 meters –oceans supposed to have been here for 3 billion years –“doesn’t add up”
- The Mississippi River dumps 80,000 tons every hour of mud in New Orleans
- The Delta is growing
- If earth is even millions of years old, Gulf of Mexico should be completely full of mud
- Gives max age of approximately 30,000 years old
 - Flood would account for difference

Rapid Rock Layers

- “There is an almost complete absence of evidence of erosion or soil layers or the activity of living things (plant roots, burrow marks, etc.) at the upper surface of the various strata (showing that the stratum did not lay there for thousands or millions of years before the next layer was deposited).”
Dr. Terry Mortenson, AiG–USA

Helium

- In the wrong places
- From decay processes
 - Families of radioactive elements generate helium as they decay
- Decay starts in rocks, helium produced in rocks
- Then helium leaks into the air
- The older the rock—the less helium present
- In billions of years, much helium should have found its way into Earth's atmosphere
- Rate of loss of Helium into space is small –taking this into account, there is only 0.05% of amount that would have accumulated in 5 billion years

Strata

- Upright (polystrate) tree trunks 10-30 feet in length have often been found in coal beds
 - Often found going through layers of “different ages”
 - Some found upside down running thru “millions of years” worth of rock
- *After Mt. St. Helens exploded in May 1980, analysis of Spirit Lake revealed many vertical floating tree trunks*
- Likewise, in the flood, these similar tree trunks could have easily been surrounded by sediments and buried

Rapid Cave Formations

- Stalactites (ceiling) on limestone caves, deposits of calcium carbonate formed by dripping of mineralized solutions
- Stalagmites build as mineral deposits
- Stalagmites grow slower than stalactites but don't take thousands of years to form
- Both are found growing in man made buildings that are less than 100 years old
 - Stalactites -over 5 feet long found in Lincoln Memorial basement built in 1923
 - Stalagmites –covered and preserved a bat that was not decomposed. Found in 1953 in Carlsbad Caverns

Missing Skeletons.

- Where are all the graves?
- Almost all ancient people buried their dead.
- Evolutionary anthropologists say that Stone Age lasted 100,000 years
 - Said “Cro-magnon men”/Neanderthals had constant population between 1 and 10 million
- Should have produced 4 billion stone age skeletons, yet only a few thousand were formed

Rapid Fossilization

- Soft parts/organisms don't normally fossilize
 - jellyfish, animal feces, scales and fins of fish
- Whole, large, fully-articulated skeletons (e.g., whales or large dinosaurs such as T-Rex) are preserved
- Where are the fossils for the buffalos from early America?
- Clams die and open up. Fossils of clams in the closed position are found
- Eggs found fossilized
- All evident of rapid burial
 - fossilized before scavengers, micro-decay organisms and erosional processes could erase the evidence

Rapid petrification

- It doesn't take millions of years for things to petrify. Accounts of various things found petrified:
 - ▣ Acorns in one year, pickle, flour, fish giving birth found petrified
- A rubber-soled boot with petrified cowboy (human) leg, bones and all was found in a dry creek bed near the West Texas town of Iraan, about 1980 by Mr. Jerry Stone, an employee of Corvette oil company.

■ 70% of Churched Youth walk away from their faith within their first year in a secular college.
